Personal Statement

Principal Full-Stack Developer with 22 years in Software Development, currently at Vantage Point Technologies. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Angular, pytest and Docker.

Professional Experience

Principal Full-Stack Developer, Vantage Point Technologies

October 2017 to Current | South Erikastad (Remote (UK))

- Led the migration of a legacy monolith to TypeScript, taking deployments from fortnightly to 10 per day.
- Partnered with product to scope and deliver 4 major releases, each behind staged rollouts.
- Set the service-level objectives for 3 services and built the dashboards the team still runs on.
- Cut CI build times by 20% by parallelising the GitHub Actions pipeline and caching dependency layers.

Backend Developer

Amber Creek Software | June 2008 to May 2017 | Port Matthewmouth (Remote)

- Replaced a third-party dependency with an in-house TypeScript module, saving \$10k per year in licence fees.
- Mentored 10 junior engineers, ran weekly design reviews, and authored the team's onboarding guide.
- Rewrote the search path in FastAPI, dropping median response from 1200ms to 40ms for 50M monthly users.

Software Engineer, Fenwick Digital

September 2005 to May 2008 | Lake Josephshire (Hybrid)

- Introduced contract testing with CI/CD, lifting coverage from 4% to 85% and cutting integration bugs.
- Owned the customer-facing API end to end on JavaScript, from schema design through on-call support.

Mobile Engineer

Nova Tech Group | October 2004 to June 2005 | Lake Charles

- Designed and shipped JavaScript services handling 6k requests per minute, cutting p99 latency from 600ms to 60ms.
- Built a reusable JavaScript component library adopted by 20 product teams, removing months of duplicated work.

Lumen Works — Backend Developer

April 2003 to May 2004 | North Tina (Remote)

- Refactored the billing module behind a feature flag, eliminating 60% of recurring production incidents.
- Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 20%.

Education & Qualifications

Bachelor, Computer Science

South Danielle Institute of Technology | 2000 to 2003

Technologies

Angular (19 years), pytest (2 years), Docker (20 years), Go (8 years), TypeScript (17 years), C# (4 years), Redis (8 years), CI/CD (10 years), FastAPI (11 years), JavaScript (16 years), MySQL (4 years), Sketch (16 years), Power BI (8 years), GitHub Actions (16 years), TensorFlow (9 years), Terraform (1 year)

Certificates

Certified Kubernetes Administrator (CKA) — Cloud Native Computing Foundation, 2025

Languages

English – Fluent
