Summary

Platform Engineer with 2 years of commercial experience across Software Development. I learn fast, ask a lot of questions, and care about leaving code clearer than I found it. Core tools: REST APIs, Vue.js.

Education and Training

Master, Information Systems

East Mikeburgh Institute of Technology | 2021 – 2023

Bachelor, Information Systems

Bassport National University | 2017 – 2020

Career History

Platform Engineer

Lumen Works | Apr '24 – Present | Shawnmouth (Remote)

- Designed and shipped Ruby services handling 10k requests per minute, cutting p99 latency from 450ms to 80ms.
- Set the service-level objectives for 3 services and built the dashboards the team still runs on.
- Cut CI build times by 15% by parallelising the the in-house toolchain pipeline and caching dependency layers.
- Refactored the billing module behind a feature flag, eliminating 60% of recurring production incidents.

Technologies

Languages: C#, Java, Ruby

Frameworks: Vue.js, TensorFlow

Data: MLflow

Testing & Tooling: REST APIs

Projects

Recipe search engine

Full-text search over a scraped recipe corpus using Java; learned more about ranking than about cooking.

Charity chatbot

Built a TensorFlow assistant for a local charity to answer volunteer questions; retired it once they moved to a supported platform.

Personal finance tracker

Self-hosted spend tracker built with TensorFlow. Deliberately kept the data local rather than using a hosted service.

Certificates

Certified ScrumMaster (CSM) — Scrum Alliance, 2022

Publications

"Adoption barriers for self-service analytics" - technical report, 2025. Cited internally as the basis for the current design.

"Adoption barriers for self-service analytics" - accepted at a peer-reviewed workshop, 2024.

Awards

Peer Recognition Award, 2018

Community

Volunteer instructor at a weekend coding club for 20 secondary school students.
