Summary

Pragmatic Software Engineer (6 years in Software Development). I enjoy untangling messy systems and leaving them simpler than I found them. Day to day that means Node.js, Django and a lot of conversations with the people who use what we build.

Employment History

Software Engineer, BrightPath Solutions

2020-05 — Present

- » Set the service-level objectives for 2 services and built the dashboards the team still runs on.
- » Owned the customer-facing API end to end on Vue.js, from schema design through on-call support.
- » Cut CI build times by 45% by parallelising the AWS pipeline and caching dependency layers.
