Career Objective

Applied Scientist with 5 years in Data/AI/ML, focused on AWS and TensorFlow. Comfortable owning a feature from discovery through to production support.

Relevant Experience

Amber Creek Software — Applied Scientist

Oct 2023 – Present | Cortezside

- Productionised demand forecasting models that reduced stock-outs by 12% across 30 regions.
- Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.
- Developed an NLP classification system in Python reaching 85% F1, replacing a manual review queue.

Junior Applied Scientist, Dell

Feb 2021 – Jun 2023 | Wolfefurt

- Ran A/B tests across 12 model variants; the winning variant added an estimated \$120k in annual revenue.
- Wrote the team's model documentation and review standard, now required before any production launch.

Qualifications

Master, Information Systems

Annettemouth State University | 2019 – 2020

Bachelor, Information Systems

East Barbaramouth State University | 2015 – 2019

Key Skills

Languages: Python, Rust

Frameworks: TensorFlow, Hugging Face, FastAPI

Cloud & DevOps: AWS

Data: Snowflake

Selected Projects

Match-day predictor

Small model in Rust predicting league results. Beats the naive baseline; still loses to the bookmakers.

Commute optimiser

Pulls transit APIs and suggests departure times, built on Rust.

Certifications

Professional Data Engineer — Google Cloud, 2025

Databricks Certified Data Engineer Associate — Databricks, 2023
