Personal Statement

15 years in DevOps/Infrastructure, most of it spent on systems other teams depend on. Comfortable leading technical decisions, pushing back on scope when it matters, and carrying a pager for what I build. Primary tools: Go and Kafka.

Career History

2021-05 — Present	Senior DevOps Engineer SAP - Led the Kubernetes upgrade across 15 clusters with zero customer-visible downtime. - Ran the on-call rotation for 50 production services, sustaining 99.9% availability. - Hardened Linux environments ahead of SOC 2, closing 40 critical findings.
2011-05 — 2021-04	DevOps Engineer Nova Tech Group - Introduced infrastructure-as-code with CI/CD, eliminating manual provisioning entirely. - Built observability on Azure so teams could self-serve dashboards instead of filing tickets.

Qualifications

Master, Economics

East Jenny National University | 2009 — 2010

Bachelor, Electrical Engineering

Hugheshaven State University | 2004 — 2008

Skills

- Go — Proficient
- Kafka — Advanced
- Linux — Working knowledge
- Redis — Intermediate
- Docker — Expert
- CI/CD — Expert
- Bash — Advanced
- Nginx — Advanced
- Java — Expert
- Next.js — Proficient
- MySQL — Expert
- Azure — Expert

Volunteering

Volunteer instructor at a weekend coding club for 12 secondary school students.

Language Skills

- English – C2
- Spanish – B2
- Polish – Intermediate (B1)
