Professional Profile

Infrastructure Engineer with 1 year of commercial experience across DevOps/Infrastructure. I learn fast, ask a lot of questions, and care about leaving code clearer than I found it. Core tools: Linux, Grafana.

Qualifications

Bachelor, Software Engineering

Natalievew State University | 2021 - 2024

Dean's List (2 years)

Work Experience

Clearwater Systems — Infrastructure Engineer

11/2024 - Present | Raymondmouth

- Ran the on-call rotation for 50 production services, sustaining 99.9% availability.
- Migrated 8 services to Nginx, cutting monthly infrastructure spend by 12%.
- Introduced infrastructure-as-code with Grafana, eliminating manual provisioning entirely.
- Built CI/CD pipelines with Datadog, bringing mean time to deploy under 4 minutes.

Skills

- Linux
- Grafana
- Kubernetes
- Datadog
- Confluence
- C#
- Nginx

Side Projects

Personal finance tracker

Self-hosted spend tracker built with Grafana. Deliberately kept the data local rather than using a hosted service.

Technical blog

Writing up Grafana experiments and failures, roughly 1k readers a month.

Home energy dashboard

Collects meter readings and renders them with Kubernetes. Mostly an excuse to learn time-series storage properly.

Volunteering

Committee member, local DevOps meetup - organise speakers and venue.
