Professional Summary

Early-career Junior MLOps Engineer with 1 year in Data/AI/ML. Strongest in Hugging Face; currently deepening my SQL experience through production work rather than tutorials.

Qualifications

PhD, Biology

Greerstad University | 2020 to 2023

Relevant coursework: Biostatistics, Genetics, Cell Biology, Bioinformatics

Bachelor, Biology

Port Jenny National University | 2019

Career History

Junior MLOps Engineer

Ironwood Consulting | January 2025 to March 2026 | Sheilafurt

- Ran A/B tests across 8 model variants; the winning variant added an estimated \$80k in annual revenue.
- Built the feature store that 2 downstream models now read from, ending duplicated feature logic.
- Developed an NLP classification system in Python reaching 88% F1, replacing a manual review queue.
- Cut inference cost by 70% through quantisation, batching and autoscaling on the in-house toolchain.

Technologies

Hugging Face

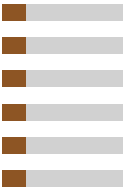

SQL

Python

Scikit-learn

Confluence

C++

Side Projects

Match-day predictor

Small model in Confluence predicting league results. Beats the naive baseline; still loses to the bookmakers.

Charity chatbot

Built a Python assistant for a local charity to answer volunteer questions; retired it once they moved to a supported platform.

Conference talk

Spoke on Hugging Face in production at a regional meetup, ~80 attendees.

Certificates

Azure Fundamentals (AZ-900) — Microsoft, 2025

Professional Data Engineer — Google Cloud, 2016

Tableau Desktop Specialist — Tableau, 2026

Selected Publications

"Population modelling under habitat fragmentation" - technical report, 2023. Cited internally as the basis for the current design.

"Sequence alignment heuristics for large genomes" - technical report, 2024. Cited internally as the basis for the current design.

Recognition

Peer Recognition Award, 2019

Hobbies & Interests

Five-a-side football, Cycling, Chess
