Personal Statement

Senior Applied Scientist with 13 years in Data/AI/ML, currently at Palantir. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Docker, MLflow and Kafka.

Academic History

Master, Business Administration

Brittneyhaven Institute of Technology | 2012 to 2013

Thesis: "Pricing strategy in two-sided marketplaces"

Bachelor, Business Administration

Ericksonport University | 2008 to 2011

Core Competencies

Docker — Working knowledge

MLflow — Working knowledge

Kafka — Expert

Scikit-learn — Expert

Airflow — Expert

TensorFlow — Expert

Snowflake — Working knowledge

Hugging Face — Advanced

PyTorch — Intermediate

dbt — Expert

FastAPI — Intermediate

Linux — Expert

Selenium — Expert

Ruby — Advanced

Work Experience

Palantir — Senior Applied Scientist

August 2019 to Now | Heiditown

- Built an end-to-end training pipeline on TensorFlow, cutting retraining from days to 30 hours.
- Established offline/online evaluation parity, catching 2 silent regressions before release.
- Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.

AI Researcher, Vantage Point Technologies

January 2013 to August 2019 | Jacobtown (Remote)

- Trained and deployed Scikit-learn models serving 50M predictions per day at under 80ms p95.
- Mentored 3 analysts moving into modelling work, with weekly paper reading and code review.

Recognition

Engineering Excellence Award, 2023

Internal Hackathon Winner, 2019
