RELEVANT EXPERIENCE

UX Designer, Silverline Data

Mar 2022 – Current

- Wrote the PRDs and acceptance criteria for a platform migration affecting 15k users.
- Redesigned onboarding in TypeScript, lifting activation from 6% to 85%.
- Prototyped 30 concepts in TypeScript and killed two early on evidence rather than opinion.
- Introduced accessibility standards to the design process, taking 15 flows to WCAG AA.

ACADEMIC HISTORY

Bachelor, Mathematics

South Brittanytown University | 2017 – 2020

KEY SKILLS

Languages: TypeScript

Cloud & DevOps: Kubernetes, GCP

Analytics & Design: Power BI

Testing & Tooling: Jira, Confluence

OPEN SOURCE

Technical blog

Writing up Jira experiments and failures, roughly 1k readers a month.

Match-day predictor

Small model in Kubernetes predicting league results. Beats the naive baseline; still loses to the bookmakers.

VOLUNTEER EXPERIENCE

Mentor, a community tech collective - coaching career changers through their first technical role.

LANGUAGES

English – Native

Turkish – Basic (A2)

PERSONAL INTERESTS

Chess, Competitive pub quizzes, Home automation, Five-a-side football
