Profile

Pragmatic Technical Product Manager (7 years in Product/Design). I enjoy untangling messy systems and leaving them simpler than I found them. Day to day that means Git, React and a lot of conversations with the people who use what we build.

Employment History

Technical Product Manager, Dell

Feb '19 – Present

- » Prioritised a backlog for 20 engineers, delivering 3 releases per quarter.
- » Prototyped 8 concepts in React and killed two early on evidence rather than opinion.
- » Partnered with data to define activation and retention definitions the whole company now uses.
