

Mario Smith

MLOps Engineer

Profile

Data/AI/ML graduate with 1 year of hands-on experience, most recently at Vantage Point Technologies. Comfortable with Snowflake and SQL, and keen to work somewhere with strong code review culture.

Professional Experience

MLOps Engineer, Vantage Point Technologies

October 2024 to Current | North Ronaldstad (On-site)

- » Migrated ad-hoc notebooks into versioned MLflow pipelines with reproducible runs and tracked experiments.
- » Wrote the team's model documentation and review standard, now required before any production launch.
- » Cut inference cost by 35% through quantisation, batching and autoscaling on AWS.
- » Trained and deployed Scikit-learn models serving 40M predictions per day at under 40ms p95.

Academic Background

PhD, Business Administration

Jonathanland National University | 2019 to 2024

Thesis: "Pricing strategy in two-sided marketplaces"

Bachelor, Business Administration

Kevinside State University | 2016 to 2019

Side Projects

Commute optimiser

Pulls transit APIs and suggests departure times, built on LangChain.

Recipe search engine

Full-text search over a scraped recipe corpus using Elasticsearch; learned more about ranking than about cooking.

Charity chatbot

Built a Elasticsearch assistant for a local charity to answer volunteer questions; retired it once they moved to a supported platform.

Recognition

Best Team Contribution, 2016

Internal Hackathon Winner, 2020
