Profile

Machine Learning Engineer with 1 year of commercial experience across Data/AI/ML. I learn fast, ask a lot of questions, and care about leaving code clearer than I found it. Core tools: NumPy, BigQuery.

Academic History

Bachelor, Information Systems

East Luisberg Institute of Technology | 2025

Relevant coursework: Business Process Modelling, IT Governance, Database Design, Enterprise Architecture

Professional Experience

Machine Learning Engineer, Meridian Software

January 2025 to Now | Alexanderborough

- Productionised demand forecasting models that reduced stock-outs by 60% across 15 regions.
- Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.
- Reduced label noise by redesigning the annotation guidelines, improving validation accuracy by 70%.

Core Competencies

NumPy (1 year), BigQuery (1 year), LangChain (1 year), Databricks (1 year), Redshift (1 year), GraphQL (1 year), REST APIs (1 year)

Selected Projects

Commute optimiser

Pulls transit APIs and suggests departure times, built on LangChain.

Charity chatbot

Built a Databricks assistant for a local charity to answer volunteer questions; retired it once they moved to a supported platform.

Home energy dashboard

Collects meter readings and renders them with Redshift. Mostly an excuse to learn time-series storage properly.

Certifications

Certified ScrumMaster (CSM) — Scrum Alliance, 2016

Google Analytics Certification — Google, 2019
