About Me

Data/AI/ML graduate with 1 year of hands-on experience, most recently at IBM. Comfortable with Snowflake and NumPy, and keen to work somewhere with strong code review culture.

Academic Background

Bachelor, Biology

South Connorville National University | 2021 — 2025

Relevant Experience

IBM — MLOps Engineer

2025-01 — Present

- Wrote the team's model documentation and review standard, now required before any production launch.
- Migrated ad-hoc notebooks into versioned NumPy pipelines with reproducible runs and tracked experiments.
- Built the feature store that 40 downstream models now read from, ending duplicated feature logic.

Technologies

Snowflake (1 yr exp), NumPy (1 yr exp), Kafka (1 yr exp), SQL (1 yr exp), Confluence (1 yr exp), Selenium (2 yr exp), Pandas (1 yr exp)

Notable Projects

Technical blog

Writing up SQL experiments and failures, roughly 2k readers a month.

Recipe search engine

Full-text search over a scraped recipe corpus using Selenium; learned more about ranking than about cooking.

Charity chatbot

Built a SQL assistant for a local charity to answer volunteer questions; retired it once they moved to a supported platform.

Language Skills

English – Bilingual

Personal Interests

Board games, Urban sketching, Baking, Cycling
