Senior MLOps Engineer with 21 years in Data/AI/ML, currently at Clearwater Systems. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Airflow, Spark and BigQuery.

WORK EXPERIENCE

Senior MLOps Engineer

Clearwater Systems | 2015–Present | Dennismouth

- Productionised demand forecasting models that reduced stock-outs by 20% across 10 regions.
- Wrote the team's model documentation and review standard, now required before any production launch.
- Reduced label noise by redesigning the annotation guidelines, improving validation accuracy by 60%.

Machine Learning Engineer, Lumen Works

2009–2015 | Fordstad

- Mentored 12 analysts moving into modelling work, with weekly paper reading and code review.
- Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.

Amber Creek Software — Applied Scientist

2004–2009 | Tonyville

- Ran A/B tests across 2 model variants; the winning variant added an estimated \$20k in annual revenue.
