LangChain — Advanced
SQL — Intermediate
Databricks — Working knowledge
Airflow — Advanced
Hugging Face — Intermediate
Snowflake — Advanced
PyTorch — Intermediate
Cypress — Intermediate
C++ — Advanced
Git — Advanced

Angela Lee

AI Researcher

SUMMARY

Senior Data/AI/ML professional, 9 years in. Track record of taking ambiguous problems through design, delivery and the unglamorous operational work that follows. I mentor deliberately and write things down. Core stack: LangChain, SQL, Databricks.

PROFESSIONAL EXPERIENCE

DeepMind — AI Researcher

11/2021 - Present | Willisstad (Remote (UK))

- Developed an NLP classification system in Hugging Face reaching 96% F1, replacing a manual review queue.
- Mentored 5 analysts moving into modelling work, with weekly paper reading and code review.
- Cut inference cost by 55% through quantisation, batching and autoscaling on the in-house toolchain.
- Lifted recommendation click-through by 60% through feature engineering and retraining cadence in PyTorch.
- Reduced label noise by redesigning the annotation guidelines, improving validation accuracy by 22%.

MLOps Engineer, Blue Orbit Labs

06/2019 - 06/2021 | Barretton (Hybrid)

- Ran A/B tests across 12 model variants; the winning variant added an estimated \$120k in annual revenue.
- Migrated ad-hoc notebooks into versioned LangChain pipelines with reproducible runs and tracked experiments.
- Wrote the team's model documentation and review standard, now required before any production launch.
- Built an end-to-end training pipeline on PyTorch, cutting retraining from days to 3 hours.

MLOps Engineer, LinkedIn

10/2017 - 05/2019 | Jacquelinestad

- Trained and deployed Hugging Face models serving 3M predictions per day at under 60ms p95.
- Built the feature store that 20 downstream models now read from, ending duplicated feature logic.
- Productionised demand forecasting models that reduced stock-outs by 45% across 4 regions.

Machine Learning Engineer, Summit Digital

09/2016 - 10/2017 | East Robertmouth (Remote)

- Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.
- Established offline/online evaluation parity, catching 5 silent regressions before release.
- Presented the team's work at an internal engineering forum of 40+ colleagues.

ACADEMIC HISTORY

Master, Communications

Salazarland National University | 2015 - 2016

Bachelor, Communications

Michaeltown National University | 2012 - 2015

CERTIFICATES

Databricks Certified Data Engineer Associate — Databricks, 2021
