

Audrey Rivera

Summary

Senior Quality Engineer with 14 years in QA/Testing, currently at Cobalt Applications. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Docker, Java and Selenium.

Qualifications

High School

Huntfort High School | 2011

Career History

Cobalt Applications — Senior Quality Engineer

01/2021 - 03/2026

- Established test data management practices later adopted by 10 teams.
- Mentored 30 manual testers into automation roles.
- Introduced flaky-test quarantine, taking suite reliability from 20% to 82%.
- Owned release sign-off for 40 services, coordinating across product and support.

Test Automation Engineer

Oracle | 11/2014 - 11/2020

- Integrated automated checks into the Linux pipeline, blocking 50 faulty releases.
- Built the defect triage process and reporting the engineering leads still use.
- Drove accessibility coverage from 4% to 85% of core journeys.

Junior Test Automation Engineer, Meridian Software

12/2012 - 06/2014

- Wrote the team's testing strategy, separating unit, contract and end-to-end responsibilities.
- Reduced escaped defects by 40% through risk-based test prioritisation.

Test Automation Engineer

Lumen Works | 04/2011 - 08/2012

- Automated 8 regression suites with Java, cutting the manual test cycle by 35%.
- Partnered with developers to shift testing left, embedding QA in refinement sessions.
