Relevant coursework: Bayesian Inference, Data Mining, Statistical Learning, Natural Language Processing

EMPLOYMENT HISTORY

BrightPath Solutions — Technical Product Manager

April 2024 to Now

- » Ran discovery interviews with 20 customers, reshaping the following year's roadmap.
- » Reduced support contacts by 55% by reworking the checkout and error states.
- » Prioritised a backlog for 40 engineers, delivering 4 releases per quarter.
- » Shipped a design system in React adopted across 40 product surfaces.

CORE COMPETENCIES

React • Git • Figma • Scala • Nginx

PROJECTS

Commute optimiser

Pulls transit APIs and suggests departure times, built on Git.

Recipe search engine

Full-text search over a scraped recipe corpus using React; learned more about ranking than about cooking.

Personal finance tracker

Self-hosted spend tracker built with React. Deliberately kept the data local rather than using a hosted service.
