

JESSICA N. MEYER

kimberly36@example.net | 001-452-683-0615x3701 | Lake Kelly | linkedin.com/in/jessica-n-meyer | github.com/jessicadev

Infrastructure Engineer with 10 years in DevOps/Infrastructure, currently at Ironwood Consulting. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Prometheus, Azure and Redis.

EXPERIENCE

Infrastructure Engineer, Ironwood Consulting

2021–Present | North Kathy

- Automated 30 manual runbooks, saving an estimated 10 engineer-hours per month.
- Led the Kubernetes upgrade across 50 clusters with zero customer-visible downtime.
- Built CI/CD pipelines with Azure, bringing mean time to deploy under 40 minutes.
- Reduced incident MTTR from 8 hours to under 90 minutes with better alert routing and runbooks.

Blue Orbit Labs — Site Reliability Engineer

2019–2021 | Davidside

- Introduced infrastructure-as-code with Prometheus, eliminating manual provisioning entirely.
- Migrated 3 services to Nginx, cutting monthly infrastructure spend by 70%.
- Wrote the platform team's paved-road documentation, cutting onboarding from weeks to days.

Cloud Engineer

Intel | 2016–2018 | Dixonfort

- Hardened Azure environments ahead of SOC 2, closing 30 critical findings.
- Designed the multi-region failover strategy and led the game-day exercises that proved it.

Blue Orbit Labs — Junior DevOps Engineer

2015–2016 | Kristenstad

- Cut container image sizes by 70%, shortening cold starts across the fleet.
- Introduced secret rotation and least-privilege IAM across 4 accounts.

ACADEMIC HISTORY

Master, Physics

East Matthew University | 2014–2015

Thesis: "Monte Carlo methods for particle transport"

Bachelor, Physics

Sandovalland National University | 2014

TECHNICAL PROFICIENCIES

Prometheus (4 years), Azure (5 years), Redis (4 years), Bash (2 years), Kafka (2 years), Go (2 years), Ansible (7 years), Figma (3 years), Nginx (5 years), Git (10 years)

Languages

English – C2

Interests

Sailing, Open-source contribution
