## Profile

Recent graduate moving into DevOps/Infrastructure. Most of my practical experience is self-directed - personal projects in Datadog and Grafana - and I'm looking for a team to learn production engineering with.

## Education & Qualifications

### Bachelor, Communications

Nelsonland University | 2023–2026

Relevant coursework: Digital Strategy, Public Relations, Media Theory, Research Methods

## Professional Experience

Seeking a first professional role; see projects below.

## Technologies

| Skill         | Experience |
|---------------|------------|
| Datadog       | 1 year     |
| Grafana       | 1 year     |
| Python        | 1 year     |
| CI/CD         | 1 year     |
| Elasticsearch | 1 year     |
| Azure         | 1 year     |

## Personal Projects

### Commute optimiser

Pulls transit APIs and suggests departure times, built on Python.

### Charity chatbot

Built a Grafana assistant for a local charity to answer volunteer questions; retired it once they moved to a supported platform.

### Grafana utility library

Open-source helper library for Grafana, ~500 GitHub stars. Wrote the docs and handled issue triage.

## Volunteering

Maintainer of a small open-source Datadog library used by a handful of teams.
