Academic History

Master, Communications

Fosterburgh State University | 2023 – 2024

Thesis: “Trust signals in digital public messaging”

Bachelor, Information Systems

Claytonbury State University | 2022

Tech Stack

Spring Boot	
Python	
Docker	
PostgreSQL	
Redis	
NumPy	
Kubernetes	
Ruby	

Work Experience

Backend Developer

Meridian Software | Feb 2024 – Feb 2026

- Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 40%.
- Introduced contract testing with Python, lifting coverage from 40% to 90% and cutting integration bugs.
- Led the migration of a legacy monolith to Python, taking deployments from fortnightly to 12 per day.
- Mentored 6 junior engineers, ran weekly design reviews, and authored the team's onboarding guide.

Notable Projects

Commute optimiser

Pulls transit APIs and suggests departure times, built on PostgreSQL.

Home energy dashboard

Collects meter readings and renders them with Redis. Mostly an excuse to learn time-series storage properly.

Recipe search engine

Full-text search over a scraped recipe corpus using Kubernetes; learned more about ranking than about cooking.

Licences & Certifications

Databricks Certified Data Engineer Associate — Databricks, 2017

Azure Fundamentals (AZ-900) — Microsoft, 2020
