

Patricia Cook

Data Scientist

PROFESSIONAL SUMMARY

Data Scientist with 12 years in Data/AI/ML, currently at Adobe. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in PyTorch, Databricks and Pandas.

WORK EXPERIENCE

Data Scientist, Adobe

Oct 2016 – Mar 2026

- Built an end-to-end training pipeline on NumPy, cutting retraining from days to 12 hours.
- Wrote the team's model documentation and review standard, now required before any production launch.
- Developed an NLP classification system in PyTorch reaching 94% F1, replacing a manual review queue.
- Trained and deployed Python models serving 40M predictions per day at under 60ms p95.
- Productionised demand forecasting models that reduced stock-outs by 25% across 6 regions.

Junior Data Scientist

Ironwood Consulting | Nov 2014 – Oct 2016

- Migrated ad-hoc notebooks into versioned Python pipelines with reproducible runs and tracked experiments.
- Ran A/B tests across 6 model variants; the winning variant added an estimated \$60k in annual revenue.
- Lifted recommendation click-through by 25% through feature engineering and retraining cadence in MLflow.
- Mentored 40 analysts moving into modelling work, with weekly paper reading and code review.

Clearwater Systems — Machine Learning Engineer

Jun 2014 – Oct 2014

- Cut inference cost by 55% through quantisation, batching and autoscaling on AWS.
- Reduced label noise by redesigning the annotation guidelines, improving validation accuracy by 60%.
- Established offline/online evaluation parity, catching 12 silent regressions before release.

AI Researcher, Uber

Feb 2014 – Jun 2014

- Built the feature store that 50 downstream models now read from, ending duplicated feature logic.
- Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.
- Introduced written design docs and an RFC process, cutting rework late in delivery.

EDUCATION

Bachelor, Data Science

Port Courtneyfurt State University | 2008 – 2012

First Class Honours

PERSONAL DETAILS

qnewman@example.org
8679182226

TECHNOLOGIES

Languages: Python

Frameworks: PyTorch, Pandas, NumPy, Scikit-learn, Hugging Face

Cloud & DevOps: AWS

Data: Databricks, Snowflake, Airflow, MLflow

Testing & Tooling: Playwright

References available upon request.

OPEN SOURCE

Match-day predictor

Small model in Playwright predicting league results. Beats the naive baseline; still loses to the bookmakers.

Technical blog

Writing up NumPy experiments and failures, roughly 9k readers a month.

CERTIFICATES

Google Analytics Certification — Google, 2023

Azure Solutions Architect Expert (AZ-305) — Microsoft, 2023
