Career Objective

UX Researcher with 2 years of commercial experience across Product/Design. I learn fast, ask a lot of questions, and care about leaving code clearer than I found it. Core tools: Jira, Confluence.

Academic Background

Bachelor, Information Systems

Millertown University | 2020 – 2023

Relevant coursework: Database Design, IT Governance, Business Process Modelling, Enterprise Architecture

Experience

UX Researcher

Northbridge IT | Jan 2024 – Aug 2026

- Prototyped 4 concepts in TypeScript and killed two early on evidence rather than opinion.
- Reduced support contacts by 18% by reworking the checkout and error states.

Skills & Tools

Languages: TypeScript, Go

Frameworks: React, Hugging Face

Data: Spark

Analytics & Design: Looker

Testing & Tooling: Jira, Confluence

Projects

Personal finance tracker

Self-hosted spend tracker built with React. Deliberately kept the data local rather than using a hosted service.

Recipe search engine

Full-text search over a scraped recipe corpus using Looker; learned more about ranking than about cooking.

Match-day predictor

Small model in Go predicting league results. Beats the naive baseline; still loses to the bookmakers.

Languages

English – Native

Polish – C1
