PROFESSIONAL SUMMARY

Applied Scientist with 8 years in Data/AI/ML, currently at Meridian Software. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in TensorFlow, Spark and Hugging Face.

RELEVANT EXPERIENCE

2022–Present	Applied Scientist Meridian Software – Built an end-to-end training pipeline on LangChain, cutting retraining from days to 10 hours. – Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders. – Mentored 50 analysts moving into modelling work, with weekly paper reading and code review. – Productionised demand forecasting models that reduced stock-outs by 30% across 12 regions. – Cut inference cost by 70% through quantisation, batching and autoscaling on CI/CD.
2018–2022	Machine Learning Engineer Adobe – Wrote the team's model documentation and review standard, now required before any production launch. – Built the feature store that 8 downstream models now read from, ending duplicated feature logic. – Lifted recommendation click-through by 18% through feature engineering and retraining cadence in TensorFlow. – Ran A/B tests across 5 model variants; the winning variant added an estimated \$50k in annual revenue.

EDUCATION AND TRAINING

High School

New Colton High School | 2013–2016

TECHNOLOGIES

Skill	Experience
TensorFlow	1 year
Spark	1 year
Hugging Face	8 yrs
LangChain	2 yrs
NumPy	7 yrs
Kafka	1 year
Next.js	8 yrs
C#	4 yrs
CI/CD	4 yrs

SIDE PROJECTS

Conference talk

Spoke on LangChain in production at a regional meetup, ~40 attendees.

TRAINING & CERTIFICATIONS

Databricks Certified Data Engineer Associate — Databricks, 2016

VOLUNTEER EXPERIENCE

Mentor, CoderDojo - coaching career changers through their first technical role.

LANGUAGES

English – Fluent

Mandarin – Fluent

PERSONAL INTERESTS

Sailing, Cooking, Cycling
