About Me

Senior Product/Design professional, 8 years in. Track record of taking ambiguous problems through design, delivery and the unglamorous operational work that follows. I mentor deliberately and write things down. Core stack: Power BI, SQL, Jira.

Experience

2022-11 — 2026-03	UX Researcher Amber Creek Software ■ Built the experimentation framework the team uses to size bets before committing. ■ Facilitated usability testing that surfaced 2 critical friction points before launch. ■ Shipped a design system in TypeScript adopted across 3 product surfaces. ■ Prototyped 40 concepts in TypeScript and killed two early on evidence rather than opinion.
2018-10 — 2022-08	Technical Product Manager SAP ■ Wrote the PRDs and acceptance criteria for a platform migration affecting 30k users. ■ Defined north-star metrics and instrumented them across 40 delivery squads. ■ Reduced support contacts by 20% by reworking the checkout and error states.
2016-11 — 2018-05	Junior UX Researcher Spotify ■ Partnered with data to define activation and retention definitions the whole company now uses. ■ Redesigned onboarding in React, lifting activation from 20% to 88%.

Academic History

Bachelor, Biology

Lake Brett State University | 2013 — 2016

Key Skills

- Power BI
- SQL
- Jira
- TypeScript
- React
- Git
- Tableau
- Redshift
- GitHub Actions
- Linux
- C++

Open Source

Technical blog

Writing up Power BI experiments and failures, roughly 6k readers a month.

Language Skills

English – Bilingual

Hindi – Conversational

Dutch – Intermediate (B1)
