PERSONAL STATEMENT

Senior Product Designer with 20 years in Product/Design, currently at Clearwater Systems. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Excel, SQL and Git.

WORK EXPERIENCE

Clearwater Systems — Senior Product Designer

2012-07 — Present

- Facilitated usability testing that surfaced 20 critical friction points before launch.
- Prototyped 6 concepts in React and killed two early on evidence rather than opinion.
- Redesigned onboarding in TypeScript, lifting activation from 40% to 85%.

Technical Product Manager, Nova Tech Group

2008-10 — 2012-03

- Partnered with data to define activation and retention definitions the whole company now uses.
- Built the experimentation framework the team uses to size bets before committing.

Product Designer

IBM | 2006-03 — 2008-08

- Reduced support contacts by 60% by reworking the checkout and error states.

Junior Product Designer, Northbridge IT

2004-12 — 2005-10

- Ran quarterly roadmap reviews with executive stakeholders and published the trade-offs openly.

EDUCATION AND TRAINING

Bachelor, Software Engineering

Westtown State University | 2001 — 2004
