CAREER OBJECTIVE

Senior Data Analysis professional, 9 years in. Track record of taking ambiguous problems through design, delivery and the unglamorous operational work that follows. I mentor deliberately and write things down. Core stack: Snowflake, Redshift, Tableau.

EXPERIENCE

Insights Analyst, Silverline Data

10/2021 - Present

- » Designed the experiment readouts template now used company-wide.
- » Automated monthly reporting with Snowflake, saving 40 analyst-hours per cycle.
- » Built Tableau dashboards used daily by 40 stakeholders across three departments.
- » Rebuilt the finance forecast with the FP&A; team, improving accuracy by 40%.
- » Built data quality tests in Kafka that catch upstream breakages before stakeholders see them.

Summit Digital — Junior Analytics Engineer

11/2017 - 07/2021

- » Partnered with engineering to fix event tracking, recovering 30% of previously lost sessions.
- » Presented findings to the executive team monthly, translating analysis into concrete decisions.
- » Trained 20 non-technical colleagues to self-serve, cutting ad-hoc request volume by 18%.
- » Modelled pricing scenarios in SQL, supporting a 30% margin improvement.

Analytics Engineer

Clearwater Systems | 09/2016 - 07/2017

- » Defined and documented 6 core business metrics in the semantic layer, ending duplicate definitions.
- » Analysed churn drivers and informed retention work that reduced churn by 60%.
- » Migrated reporting from spreadsheets to Snowflake, giving one trusted source of numbers.

Analytics Engineer, Lumen Works

04/2016 - 08/2016

- » Ran cohort analysis that reframed how the business measures activation.
- » Consolidated 8 legacy reports into 3 maintained dashboards.
- » Presented the team's work at an internal engineering forum of 30+ colleagues.
