

Eric Smith

PROFESSIONAL SUMMARY

Senior Mobile Engineer with 12 years in Software Development, currently at Oracle. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Next.js, Vue.js and Django.

ACADEMIC HISTORY

Master, Electrical Engineering

Lake Nicoleview Institute of Technology | 2011–2012

Magna Cum Laude

Thesis: "Signal denoising on embedded hardware"

Bachelor, Economics

Danielchester State University | 2006–2010

EMPLOYMENT HISTORY

Senior Mobile Engineer, Oracle

2022–Present

- Cut CI build times by 35% by parallelising the the in-house toolchain pipeline and caching dependency layers.
- Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 20%.
- Refactored the billing module behind a feature flag, eliminating 22% of recurring production incidents.
- Replaced a third-party dependency with an in-house Vue.js module, saving \$6k per year in licence fees.

Backend Developer

Salesforce | 2019–2022

- Mentored 10 junior engineers, ran weekly design reviews, and authored the team's onboarding guide.
- Designed and shipped Ruby services handling 40k requests per minute, cutting p99 latency from 1200ms to 40ms.
- Owned the customer-facing API end to end on Next.js, from schema design through on-call support.

Platform Engineer, Blue Orbit Labs

2016–2019

- Hardened authentication flows in Python after a security review, closing 10 findings before audit.
- Introduced contract testing with Python, lifting coverage from 30% to 88% and cutting integration bugs.

Ridgeline Analytics — Junior Mobile Engineer

2014–2016

- Set the service-level objectives for 12 services and built the dashboards the team still runs on.
- Partnered with product to scope and deliver 15 major releases, each behind staged rollouts.

Platform Engineer, Nova Tech Group

2013–2014

- Built a reusable Vue.js component library adopted by 2 product teams, removing months of duplicated work.
- Rewrote the search path in Django, dropping median response from 450ms to 40ms for 2M monthly users.

TECHNICAL PROFICIENCIES

Next.js • Vue.js • Django • Go • pytest • Python • PostgreSQL • Spring Boot • PyTorch • Rust • Ruby

SELECTED PROJECTS

Home energy dashboard

Collects meter readings and renders them with PyTorch. Mostly an excuse to learn time-series storage properly.

Commute optimiser

Pulls transit APIs and suggests departure times, built on Django.

PROFESSIONAL CERTIFICATIONS

Certified Kubernetes Administrator (CKA) — Cloud Native Computing Foundation, 2022

ISTQB Certified Tester - Foundation Level — ISTQB, 2023

TensorFlow Developer Certificate — Google, 2021

RESEARCH OUTPUT

"Low-power sensor networks for building monitoring" - co-authored conference paper, 2014.

"Signal denoising on embedded hardware" - technical report, 2012. Cited internally as the basis for the current design.

VOLUNTEERING

Mentor, the university alumni network - coaching career changers through their first technical role.
