About Me

Junior Platform Engineer with 7 years in Software Development, focused on FastAPI and gRPC. Comfortable owning a feature from discovery through to production support.

Education and Training

Bachelor, Information Systems

Stevenmouth National University | 2018

Relevant coursework: Business Process Modelling, Enterprise Architecture, IT Governance, Database Design

Experience

Junior Platform Engineer, Shopify

Apr 2019 – Present | Elliston (Hybrid)

- Mentored 6 junior engineers, ran weekly design reviews, and authored the team's onboarding guide.
- Owned the customer-facing API end to end on FastAPI, from schema design through on-call support.
- Set the service-level objectives for 20 services and built the dashboards the team still runs on.
- Introduced contract testing with CI/CD, lifting coverage from 30% to 82% and cutting integration bugs.

Technical Skills

FastAPI — Intermediate

gRPC — Working knowledge

pytest — Proficient

Angular — Proficient

CI/CD — Proficient

BigQuery — Intermediate

Tableau — Proficient

Figma — Intermediate

Open Source

Home energy dashboard

Collects meter readings and renders them with gRPC. Mostly an excuse to learn time-series storage properly.

Personal finance tracker

Self-hosted spend tracker built with Tableau. Deliberately kept the data local rather than using a hosted service.

Licences & Certifications

ISTQB Certified Tester - Foundation Level — ISTQB, 2026

Certified Information Systems Security Professional (CISSP) — ISC2, 2020

AWS Certified Developer - Associate — Amazon Web Services, 2023

Research Output

"Data governance in federated organisations" - technical report, 2019. Cited internally as the basis for the current design.

Awards

Employee of the Quarter, 2018

Internal Hackathon Winner, 2018
