Professional Profile

Senior Data/AI/ML professional, 9 years in. Track record of taking ambiguous problems through design, delivery and the unglamorous operational work that follows. I mentor deliberately and write things down. Core stack: AWS, MLflow, Snowflake.

Work Experience

SAP — MLOps Engineer

03/2019 - Present

- Developed an NLP classification system in MLflow reaching 85% F1, replacing a manual review queue.
- Ran A/B tests across 50 model variants; the winning variant added an estimated \$500k in annual revenue.
- Cut inference cost by 60% through quantisation, batching and autoscaling on Docker.
- Migrated ad-hoc notebooks into versioned TensorFlow pipelines with reproducible runs and tracked experiments.

Machine Learning Engineer, Stripe

06/2018 - 02/2019

- Built the feature store that 12 downstream models now read from, ending duplicated feature logic.
- Reduced label noise by redesigning the annotation guidelines, improving validation accuracy by 25%.
- Built an end-to-end training pipeline on Hugging Face, cutting retraining from days to 40 hours.

SAP — MLOps Engineer

12/2016 - 05/2018

- Trained and deployed Hugging Face models serving 30M predictions per day at under 140ms p95.
- Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.

Qualifications

Master, Communications

Randyton University | 2014 - 2015

Bachelor, Communications

Jorgeburgh National University | 2014

Skills

AWS (4 years), MLflow (7 years), Snowflake (5 years), TensorFlow (6 years), Kafka (8 years), Hugging Face (9 years), Scikit-learn (9 years), Airflow (7 years), MySQL (8 years), GCP (2 years), Docker (5 years), Cypress (3 years)
