Data Analysis graduate with 1 year of hands-on experience, most recently at BrightPath Solutions. Comfortable with Tableau and Airflow, and keen to work somewhere with strong code review culture.

EDUCATION AND TRAINING

Bachelor, Business Administration

Port Samuel National University | 2020 – 2024

Relevant coursework: Operations Management, Strategic Management, Corporate Finance, Marketing Analytics

RELEVANT EXPERIENCE

Junior Business Intelligence Analyst, BrightPath Solutions

Nov '24 – Present

- Consolidated 4 legacy reports into 3 maintained dashboards.
- Analysed churn drivers and informed retention work that reduced churn by 30%.
- Built data quality tests in Databricks that catch upstream breakages before stakeholders see them.
- Designed the experiment readouts template now used company-wide.

SKILLS & TOOLS

Tableau — Working knowledge

Airflow — Working knowledge

BigQuery — Working knowledge

Power BI — Working knowledge

Databricks — Working knowledge

LangChain — Working knowledge

Git — Working knowledge

PROJECTS

Match-day predictor

Small model in Airflow predicting league results. Beats the naive baseline; still loses to the bookmakers.

Charity chatbot

Built a Databricks assistant for a local charity to answer volunteer questions; retired it once they moved to a supported platform.

Recipe search engine

Full-text search over a scraped recipe corpus using Tableau; learned more about ranking than about cooking.
