

Scott Mcknight

alvingrimes@example.com – 349.551.6570x79432 – East Josephfurt – linkedin.com/in/scott-mcknight – github.com/scottdev

Career Objective

Senior QA/Testing professional, 13 years in. Track record of taking ambiguous problems through design, delivery and the unglamorous operational work that follows. I mentor deliberately and write things down. Core stack: Postman, Docker, Cypress.

Career History

Senior SDET, Fenwick Digital

Aug 2021 – Now | North Catherineborough (Remote)

- Reduced escaped defects by 60% through risk-based test prioritisation.
- Mentored 5 manual testers into automation roles.
- Wrote the team's testing strategy, separating unit, contract and end-to-end responsibilities.
- Built a performance harness in CI/CD simulating 10k concurrent users.
- Established test data management practices later adopted by 2 teams.

QA Analyst, Meridian Software

Jun 2016 – Jun 2021 | Peterstad

- Built the defect triage process and reporting the engineering leads still use.
- Automated 50 regression suites with Postman, cutting the manual test cycle by 25%.
- Set up cross-browser and device coverage in Cypress, catching defects staging had missed.
- Cut end-to-end suite runtime from 20 hours to 6 minutes through parallelisation.

Summit Digital — QA Analyst

Jan 2014 – Mar 2016 | East Tina

- Partnered with developers to shift testing left, embedding QA in refinement sessions.
- Introduced flaky-test quarantine, taking suite reliability from 10% to 92%.
- Drove accessibility coverage from 8% to 85% of core journeys.

QA Engineer, Dell

Feb 2013 – Sep 2013 | Port John (On-site)

- Integrated automated checks into the Docker pipeline, blocking 12 faulty releases.
- Owned release sign-off for 20 services, coordinating across product and support.
- Introduced written design docs and an RFC process, cutting rework late in delivery.

Education & Qualifications

PhD, Communications

West Nancy University | 2011

Bachelor, Communications

South Joseland Institute of Technology | 2003 – 2006

Skills

Languages: JavaScript, Go

Cloud & DevOps: Docker, CI/CD, Jenkins

Data: MySQL

Analytics & Design: Figma

Testing & Tooling: Postman, Cypress, Git, Jira

Open Source

Personal finance tracker

Self-hosted spend tracker built with Postman. Deliberately kept the data local rather than using a hosted service.

Achievements

Employee of the Quarter, 2025

Engineering Excellence Award, 2022

Language Skills

English – C2

Interests

Board games, Bouldering, Amateur photography, Open-source contribution
