---

Backend Developer with 1 year of commercial experience across Software Development. I learn fast, ask a lot of questions, and care about leaving code clearer than I found it. Core tools: C#, CI/CD.

## EDUCATION AND TRAINING

---

### Bachelor, Physics

North David State University | 2020 - 2024

## CAREER HISTORY

---

### Backend Developer

Meridian Software | 07/2025 - Present | Lake Nicole (Hybrid)

- Mentored 40 junior engineers, ran weekly design reviews, and authored the team's onboarding guide.
- Rewrote the search path in React, dropping median response from 320ms to 180ms for 6M monthly users.
- Refactored the billing module behind a feature flag, eliminating 30% of recurring production incidents.

## TECHNOLOGIES

---

C# • CI/CD • gRPC • Redis • React • Rust

## OPEN SOURCE

---

### Charity chatbot

Built a C# assistant for a local charity to answer volunteer questions; retired it once they moved to a supported platform.

### Personal finance tracker

Self-hosted spend tracker built with React. Deliberately kept the data local rather than using a hosted service.

### Match-day predictor

Small model in Rust predicting league results. Beats the naive baseline; still loses to the bookmakers.

## Language Skills

English – Native
