Professional Profile

Pragmatic Data Scientist (4 years in Data/AI/ML). I enjoy untangling messy systems and leaving them simpler than I found them. Day to day that means Airflow, Kafka and a lot of conversations with the people who use what we build.

Career History

Oracle — Data Scientist

Jul 2024 – Present | Scottview

- Trained and deployed Pandas models serving 30M predictions per day at under 180ms p95.
- Established offline/online evaluation parity, catching 6 silent regressions before release.
- Wrote the team's model documentation and review standard, now required before any production launch.

Applied Scientist, Summit Digital

May 2022 – Jun 2024 | South Amandaville (On-site)

- Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.
- Lifted recommendation click-through by 25% through feature engineering and retraining cadence in Pandas.
