About Me

Pragmatic QA Engineer (4 years in QA/Testing). I enjoy untangling messy systems and leaving them simpler than I found them. Day to day that means Python, Playwright and a lot of conversations with the people who use what we build.

Employment History

2022-01 — Present	QA Engineer Lumen Works – Built a performance harness in Postman simulating 15k concurrent users. – Mentored 3 manual testers into automation roles. – Integrated automated checks into the the in-house toolchain pipeline, blocking 5 faulty releases.
