

WILLIAM RODRIGUEZ

ortizwilliam@example.org | 001-673-927-0216 | East Mollychester

17 years in Data/AI/ML, most of it spent on systems other teams depend on. Comfortable leading technical decisions, pushing back on scope when it matters, and carrying a pager for what I build. Primary tools: NumPy and TensorFlow.

EMPLOYMENT HISTORY

Senior Applied Scientist

Clearwater Systems | Aug 2017 – Now | Lake Samanthamouth (Remote)

- Built the feature store that 6 downstream models now read from, ending duplicated feature logic.
- Ran A/B tests across 12 model variants; the winning variant added an estimated \$120k in annual revenue.
- Reduced label noise by redesigning the annotation guidelines, improving validation accuracy by 55%.
- Productionised demand forecasting models that reduced stock-outs by 12% across 3 regions.
- Established offline/online evaluation parity, catching 3 silent regressions before release.

Data Scientist, Salesforce

Dec 2012 – Jun 2017 | Mccoychester

- Cut inference cost by 40% through quantisation, batching and autoscaling on Datadog.
- Wrote the team's model documentation and review standard, now required before any production launch.
- Built an end-to-end training pipeline on LangChain, cutting retraining from days to 2 hours.
- Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.

Vantage Point Technologies — MLOps Engineer

Nov 2010 – Sep 2012 | Katherineberg

- Trained and deployed NumPy models serving 30M predictions per day at under 40ms p95.
- Developed an NLP classification system in Spark reaching 85% F1, replacing a manual review queue.
- Migrated ad-hoc notebooks into versioned LangChain pipelines with reproducible runs and tracked experiments.

Nvidia — Machine Learning Engineer

Jun 2008 – Aug 2010 | Lake Katie

- Mentored 50 analysts moving into modelling work, with weekly paper reading and code review.
- Lifted recommendation click-through by 15% through feature engineering and retraining cadence in Python.
- Presented the team's work at an internal engineering forum of 40+ colleagues.

EDUCATION

Bachelor, Communications

Teresaburgh University | 2004 – 2008

KEY SKILLS

Languages: Python, SQL, C#

Frameworks: NumPy, TensorFlow, LangChain

Cloud & DevOps: Nginx, Ansible, Datadog

Data: Kafka, Spark, MLflow, Airflow

Analytics & Design: Sketch

PROFESSIONAL CERTIFICATIONS

Professional Scrum Master I (PSM I) — Scrum.org, 2025

HashiCorp Certified: Terraform Associate — HashiCorp, 2025

LANGUAGES

English – Native

Hindi – Professional working proficiency
