Personal Statement

Infrastructure Engineer with 8 years in DevOps/Infrastructure, currently at Shopify. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Grafana, Kafka and AWS.

Employment History

Infrastructure Engineer, Shopify

2022-02 — Present | Jensenfort (Remote)

- » Cut container image sizes by 35%, shortening cold starts across the fleet.
- » Introduced infrastructure-as-code with AWS, eliminating manual provisioning entirely.
- » Built CI/CD pipelines with CI/CD, bringing mean time to deploy under 2 minutes.

Junior Platform Engineer

Nova Tech Group | 2018-06 — 2021-12 | North Katrina

- » Hardened CI/CD environments ahead of SOC 2, closing 12 critical findings.
- » Built observability on CI/CD so teams could self-serve dashboards instead of filing tickets.

Education & Qualifications

Master, Data Science

Anthonymouth State University | 2015 — 2016

2:1 Honours

Thesis: "Handling label noise in weakly supervised classification"

Bachelor, Mathematics

South Jason University | 2011 — 2015

Technologies

Skill	Experience
Grafana	3 yrs
Kafka	7 yrs
AWS	8 yrs
Bash	7 yrs
