

MARCUS R. JOHNSON

wmccarthy@example.org – (925)226-5469x6815 – github.com/marcusdev

Software Development graduate looking for a first role. Picked up REST APIs and GraphQL through coursework and side projects rather than commercial work, and I'd like to learn the rest somewhere that reviews code properly.

CAREER HISTORY

Seeking a first professional role; see projects below.

ACADEMIC BACKGROUND

Master, Information Systems

Port David Institute of Technology | 2026

Thesis: "Adoption barriers for self-service analytics"

Bachelor, Information Systems

Port Megan University | 2020 – 2024

SKILLS

REST APIs	
GraphQL	
Redis	
Node.js	
Java	
Rust	

OPEN SOURCE

Personal finance tracker

Self-hosted spend tracker built with REST APIs. Deliberately kept the data local rather than using a hosted service.

Match-day predictor

Small model in REST APIs predicting league results. Beats the naive baseline; still loses to the bookmakers.

Home energy dashboard

Collects meter readings and renders them with GraphQL. Mostly an excuse to learn time-series storage properly.

Training & Certifications

AWS Certified Developer - Associate — Amazon Web Services, 2024

Databricks Certified Data Engineer Associate — Databricks, 2022

TensorFlow Developer Certificate — Google, 2023
