SKILLS

- Docker
- Django
- Go
- Spring Boot
- gRPC
- LangChain
- MongoDB
- Redshift

Pamela Thomas

Software Engineer

PROFESSIONAL PROFILE

Software Development graduate with 1 year of hands-on experience, most recently at Lumen Works. Comfortable with Docker and Django, and keen to work somewhere with strong code review culture.

ACADEMIC BACKGROUND

Master, Communications

Vanceland University | 2021 – 2023

Thesis: "Framing effects in crisis communication"

Relevant coursework: Public Relations, Research Methods, Digital Strategy, Media Theory

Bachelor, Economics

Richardston University | 2017 – 2020

PROFESSIONAL EXPERIENCE

Software Engineer, Lumen Works

Jun 2024 – May 2026

- Replaced a third-party dependency with an in-house Spring Boot module, saving \$6k per year in licence fees.
- Mentored 3 junior engineers, ran weekly design reviews, and authored the team's onboarding guide.
- Partnered with product to scope and deliver 6 major releases, each behind staged rollouts.

NOTABLE PROJECTS

Recipe search engine

Full-text search over a scraped recipe corpus using Redshift; learned more about ranking than about cooking.

Personal finance tracker

Self-hosted spend tracker built with Redshift. Deliberately kept the data local rather than using a hosted service.

Charity chatbot

Built a Go assistant for a local charity to answer volunteer questions; retired it once they moved to a supported platform.

COMMUNITY

STEM ambassador running school workshops twice a term.
