Professional Summary

Recent graduate moving into DevOps/Infrastructure. Most of my practical experience is self-directed - personal projects in Nginx and AWS - and I'm looking for a team to learn production engineering with.

Education & Qualifications

Master, Information Systems

Samanthahaven National University | 2024 to 2025

Bachelor, Information Systems

North Benjamin National University | 2019 to 2023

Experience

Seeking a first professional role; see projects below.

Key Skills

Nginx — Working knowledge

AWS — Working knowledge

Kubernetes — Working knowledge

MLflow — Working knowledge

Notable Projects

Technical blog

Writing up Nginx experiments and failures, roughly 5k readers a month.

Match-day predictor

Small model in MLflow predicting league results. Beats the naive baseline; still loses to the bookmakers.

Charity chatbot

Built a MLflow assistant for a local charity to answer volunteer questions; retired it once they moved to a supported platform.

Personal Interests

Competitive pub quizzes, Volunteering at a local coding club
