PROFESSIONAL SUMMARY

Full-Stack Developer with 9 years in Software Development, currently at Cisco. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Spring Boot, FastAPI and Docker.

EXPERIENCE

Full-Stack Developer, Cisco

2020–Present

- Replaced a third-party dependency with an in-house FastAPI module, saving \$15k per year in licence fees.
- Set the service-level objectives for 4 services and built the dashboards the team still runs on.
- Led the migration of a legacy monolith to GraphQL, taking deployments from fortnightly to 6 per day.

Software Engineer, Clearwater Systems

2017–2020

- Rewrote the search path in FastAPI, dropping median response from 780ms to 140ms for 20M monthly users.
- Partnered with product to scope and deliver 40 major releases, each behind staged rollouts.

ACADEMIC BACKGROUND

High School

West Kimberly High School | 2012–2016

KEY SKILLS

Frameworks: Spring Boot, FastAPI, PyTorch, NumPy

Cloud & DevOps: Docker

Data: PostgreSQL, Redis

Analytics & Design: Figma

Testing & Tooling: GraphQL

NOTABLE PROJECTS

Recipe search engine

Full-text search over a scraped recipe corpus using Spring Boot; learned more about ranking than about cooking.

Commute optimiser

Pulls transit APIs and suggests departure times, built on Spring Boot.

LICENCES & CERTIFICATIONS

Azure Fundamentals (AZ-900) — Microsoft, 2026
