

Jasmine Graham

Summary

12 years in DevOps/Infrastructure, most of it spent on systems other teams depend on. Comfortable leading technical decisions, pushing back on scope when it matters, and carrying a pager for what I build. Primary tools: Jenkins and CI/CD.

Experience

August 2020 to Current	Senior Site Reliability Engineer Vantage Point Technologies - Built observability on Jenkins so teams could self-serve dashboards instead of filing tickets. - Designed the multi-region failover strategy and led the game-day exercises that proved it. - Reduced incident MTTR from 3 hours to under 60 minutes with better alert routing and runbooks. - Ran the on-call rotation for 20 production services, sustaining 99.9% availability.
October 2015 to August 2020	Junior Cloud Engineer Amber Creek Software - Automated 50 manual runbooks, saving an estimated 8 engineer-hours per month. - Hardened CI/CD environments ahead of SOC 2, closing 3 critical findings. - Migrated 20 services to CI/CD, cutting monthly infrastructure spend by 12%.
May 2014 to June 2015	Infrastructure Engineer Cobalt Applications - Introduced secret rotation and least-privilege IAM across 50 accounts. - Cut container image sizes by 20%, shortening cold starts across the fleet.
August 2013 to December 2013	Site Reliability Engineer Vantage Point Technologies - Introduced infrastructure-as-code with Docker, eliminating manual provisioning entirely. - Improved cluster utilisation by 60% through right-sizing and Azure autoscaling policies.

Academic History

Master, Computer Science

Port Robertfort National University | 2013
First Class Honours
Thesis: “Scheduling strategies for distributed task queues”

Bachelor, Computer Science

South Susanmouth Institute of Technology | 2009 to 2012

Tech Stack

Jenkins (8 years), CI/CD (8 years), Kubernetes (7 years), Azure (3 years), Kafka (8 years), Docker (5 years), Grafana (6 years), C++ (10 years), Redshift (9 years), Looker (9 years), Bash (1 year)

Volunteering

STEM ambassador running school workshops twice a term.
