Summary

Senior Software Engineer with 16 years in Software Development, currently at Cobalt Applications. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Next.js, Vue.js and CI/CD.

Professional Experience

2020-07 — Present	Senior Software Engineer Cobalt Applications » Replaced a third-party dependency with an in-house Spring Boot module, saving \$40k per year in licence fees. » Partnered with product to scope and deliver 30 major releases, each behind staged rollouts. » Built a reusable Vue.js component library adopted by 2 product teams, removing months of duplicated work. » Cut CI build times by 60% by parallelising the CI/CD pipeline and caching dependency layers. » Mentored 20 junior engineers, ran weekly design reviews, and authored the team's onboarding guide.
2010-09 — 2020-07	Junior Platform Engineer Vantage Point Technologies » Introduced contract testing with Python, lifting coverage from 10% to 88% and cutting integration bugs. » Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 15%. » Hardened authentication flows in Next.js after a security review, closing 4 findings before audit. » Owned the customer-facing API end to end on Next.js, from schema design through on-call support.

Education

Bachelor, Economics

Austinside University | 2008

Tech Stack

Languages: JavaScript, Python, C#

Frameworks: Next.js, Vue.js, Spring Boot, Angular

Cloud & DevOps: CI/CD

Data: Snowflake

Testing & Tooling: gRPC, pytest, Cypress

Training & Certifications

Certified Kubernetes Administrator (CKA) — Cloud Native Computing Foundation, 2019

Professional Scrum Master I (PSM I) — Scrum.org, 2022

Tableau Desktop Specialist — Tableau, 2024

Volunteering

Volunteer instructor at a weekend coding club for 25 secondary school students.

Language Skills

English – Fluent
