## Professional Summary

Early-career Machine Learning Engineer with 2 years in Data/AI/ML. Strongest in Spark; currently deepening my Snowflake experience through production work rather than tutorials.

## Education

### Bachelor, Electrical Engineering

East Ryanchester Institute of Technology | 2020 to 2023

## Experience

### Lumen Works — Machine Learning Engineer

October 2023 to Current

- Lifted recommendation click-through by 20% through feature engineering and retraining cadence in Hugging Face.
- Wrote the team's model documentation and review standard, now required before any production launch.
- Reduced label noise by redesigning the annotation guidelines, improving validation accuracy by 40%.
- Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.
