Skills & Tools

SQL (1 yr exp), Python (2 yr exp),
Hugging Face (2 yr exp), AWS (2 yr
exp), GraphQL (4 yr exp), LangChain
(2 yr exp), Kafka (1 yr exp)

Language Skills

English – C2
Hindi – Basic (A2)

ANGELA ANDERSON

Machine Learning Engineer

About Me

Pragmatic Machine Learning Engineer (4 years in Data/AI/ML). I enjoy untangling messy systems and leaving them simpler than I found them. Day to day that means SQL, Python and a lot of conversations with the people who use what we build.

Employment History

Machine Learning Engineer

Shopify | 2024-09 — 2026-03

- Lifted recommendation click-through by 70% through feature engineering and retraining cadence in Python.
- Built an end-to-end training pipeline on LangChain, cutting retraining from days to 50 hours.
- Ran A/B tests across 30 model variants; the winning variant added an estimated \$300k in annual revenue.
- Wrote the team's model documentation and review standard, now required before any production launch.

AI Researcher

Cobalt Applications | 2021-11 — 2024-06

- Mentored 10 analysts moving into modelling work, with weekly paper reading and code review.
- Developed an NLP classification system in Python reaching 92% F1, replacing a manual review queue.
- Reduced label noise by redesigning the annotation guidelines, improving validation accuracy by 15%.

Academic Background

Master, Business Administration

East Sydneyhaven State University | 2020 — 2021

2:1 Honours

Thesis: "Pricing strategy in two-sided marketplaces"

Bachelor, Data Science

South Billyview University | 2017 — 2020

Side Projects

Home energy dashboard

Collects meter readings and renders them with SQL. Mostly an excuse to learn time-series storage properly.
